Estes Park Institute has been bringing leadership teams together since 1974 to provide continuing education for hospital executives, trustees, and medical staff leaders. Our conferences explore solutions to operational, financial, technological, and quality challenges and provide strategies and tactics to help your organization thrive in the future.

We have designed a program that isn’t just built for you, it’s built by you, addressing what you have told us are the most pressing issues your organization is facing. Over four days, the Estes Park Institute’s distinguished faculty and expert guest presenters will dig deep to unearth the answers to your specific problems. They’ll present time-tested strategies and the latest innovations—providing the solutions you need for today, and for years to come.

As your hospital’s leadership team learns together, you’ll strengthen the bonds of teamwork that will continue to benefit your hospital, your community, and your patients long after the conference ends.

“I think the greatest advantage is the ability/opportunity to set the stage and discuss areas of opportunity within my organization.”
— President & Chief Executive Officer

A n Estes Park Institute conference is designed to meet each individual health care leader’s education goals. Each member of your team will have the opportunity to experience Estes Park’s dynamic general sessions, delve deeper into a specific health care challenge with our focused tracks, then drill down with our interactive break-out sessions.

**General Sessions**

*In an Estes Park Institute general session, executives, physicians and trustees come together to hear real solutions to a broad range of problems and challenges facing health care organizations today. Hearing the same message as a team stimulates discussion and provides a strong foundation for generating a take-home plan to implement new ideas and strategies.*

**Program Tracks**

*Change and uncertainty have become constants in 21st century health care. To help you cope with those new realities, we have designed focused Program Tracks—important drivers for continued success in your communities. These are vital learning experiences for you and your team to take back home, and the content of each Track continues in our Interactive Sessions.*

**Interactive Sessions**

*Our workshop-style interactive sessions drill down by offering a choice of topics for each individual team member’s area of expertise. The Estes Park Institute Fellows delve into the nuts and bolts of specific issues and conclude with a discussion period, enabling participants to ask questions about how these topics apply to their own organization.*
